英国ジェントルマン☆ミスター・スミスの「これ、ウケる!」NIPPONカルチャー

☆☆ Niihama shall soon be celebrating it's 80th birthday. I have heard that a movie will be made to honor this occasion. I have found there to be many fascinating stories to tell here. If the director intends to make a horror flick, how about the ghost of Choshi no taki? If it should be a tale of hardship, let's not forget the many kilometers people walked up and down Besshi mountains with copper ore strapped to their backs. For romance, I'm picturing the sun setting over a couple as they stroll along Marine park beach followed by a kiss under the stars at the planetarium. Now you just try and tell me that doesn't bring a tear to your eye!

Happy Birthday Niihama ~♪

What is this called
in English?

正解は...**striped**
ボーダーのTシャツって日本では言いますよね。
でも、しま模様は縦だろうと横だろうとstripedです☆
borderは境界線や、国境の意味になります。
